Understanding the Wayne State University
International Student Health Insurance Requirement

Why am I required to have health insurance?
Due to the high cost of health care in the United States, Wayne State University (WSU) and federal regulations require that all Exchange Visitors, International Students and their dependents have insurance coverage for sickness and illness during their entire program period. Health insurance allows you to focus on your academic success, and not unexpected health care expenses.

What insurance plan can I purchase?
All international students and their dependents, residing in the United States, must enroll in the WSU-sponsored Student Accident and Sickness Plan administered by Blue Cross, Blue Shield of Michigan. Coverage may be purchased either annually or each semester. A registration hold will be placed on your account each semester until coverage is verified. **DO NOT** purchase alternative health insurance. It will not be accepted in place of the Wayne State University plan.

F1 and J1 students with health insurance provided through a Wayne State University Fellowship (including Rumble) or Graduate Assistantship (GRA/GSA/GTA) will automatically be enrolled in the repatriation plan each academic year. This coverage is also mandatory for their F-2 and J-2 dependents. The annual cost for the 2021-2022 year is $6. The cost of the plan for all F1 and J1 students holding a Wayne State University Fellowship (including Rumble) or Graduate Assistantship (GRA/GSA/GTA) will be covered by OISS. You must purchase the repatriation plan for your dependents.

What does the plan cover?
Blue Cross, Blue Shield of Michigan provides:
- A local and nationwide network of doctors, hospitals and specialists
- Routine health services covered at 100% when you visit the University’s Campus Health Center
- Coverage for a wealth of services including doctor’s office visits, emergency care, dental services and prescription drugs
- Travel Assistance and Worldwide Unlimited Medical Evacuation and Repatriation

Though the price may seem expensive, it much more expensive not to have health insurance. For example, one visit to an emergency room can cost well over $1,500. Typical hospital charges, not including a surgery or tests, may cost $2,500 or more per day.
